3.4 Merit requirement for students enrolled in years after the first of the Bachelor's and Master's Degree Programs

3.4.1 Number of credits

Students enrolled in years after the first of the Bachelor's and Master's Degree Courses must have achieved the total number of credits specified in the following table in the current course of study, deriving from exams **taken and recorded within the first exam session of the academic year 2021/2022:**

<i>CFU to achieve within the first exam session of the academic year 2021/2022:</i>			
Courses	Year		
	2°	3°	
Bachelor's Degree Courses	35	90	
Master's Degree Courses	45	==	

For Bachelor's and Master's Degree Courses whose number of achievable annual credits differs from the number set by the D.M. 270/04 (60 credits per year), for the determination of the merit requirement, it is applied a criterion proportional to the merit requirement set out in the table above, rounded down.

The exams taken, recognized as valid for determining the merit requirement, are those specifically indicated in the study plan proposed by the Faculty, or in the study plan proposed by the student and

already approved, on the date of submission of the application, by the Faculty Council, according to the law of 11 December 1969, n. 910.

3.4.2 Credit validity and weighted average

When completing the online application, you will be asked to indicate the number of credits earned and the relative weighted average. These values must be understood as follows:

NUMBER OF CREDITS: it is required to declare the credits deriving from exams taken and regularly recorded from the beginning of the career (for the current level of studies) and within the first examination session of the 2021/2022. Exams with marks not out of thirty are also valid. **Credits deriving from recovered learning obligations and from individual ongoing modules cannot be taken into account.**

WEIGHTED AVERAGE: it is required to calculate and declare the weighted average referring to the exams indicated in the "NUMBER OF CREDITS" field; exams with marks not out of thirty are not to be considered. "30 e lode" is worth 30.

To calculate the weighted average, it is necessary to multiply each grade by the value (in credits) of the exam; the sum of these results must be divided by the total number of credits thus considered.

Example:

No. Exams	Mark	Value in CFU
1	26/30	9
2	30/30	12
3	18/30	9
4	approved	3
Total of CFU achieved		33
Total of CFU to be considered in the weighted average		30

Weighted average:

26 x 9 =	234 +	
30 x 12 =	360 +	
18 x 9 =	162 +	
Total	756	Weighted average: 756 / 30 = 25,20

4- FORMATION OF RANKINGS

The rankings are formulated according to Bachelor's Degree Courses, Master's Degree Courses and to Courses year.

4.1 Students enrolled for the first time in the first year of Bachelor's and Master's degree Courses

The position in the rankings is determined, in descending order, by the overall score resulting from the sum of the score relating to the number of credits achieved within the first exam session of the academic year 2021/2022 and the score determined by the weighted average grade of the exams. The total points that can be attributed are 1,000 distributed as follows: 600 based on the number of credits acquired and 400 based on the weighted average grade of the exams passed.

The score related to the credits obtained, related to exams taken and recorded within the first exam session of the academic year 2021/2022, is calculated according to the following formula:

$$\frac{(\text{Student credits} - \text{Minimum credits}) \times 600}{(\text{Max credits} - \text{Minimum credits})}$$

The score related to the weighted average grade of the exams taken and recorded within the first exam session of the academic year 2021/2022, is calculated according to the following formula (the grade *30 e lode* is counted as 30):

$$\frac{(\text{Student weighted average} - 18) \times 400}{(30-18)}$$

With the same score of merit, the student in the most disadvantaged economic-financial condition of the family unit will be favored, determined according to the ISEE model of the University Fees and Contributions Regulations for the A.Y. 2021/2022.

4.2 Students enrolled for academic years after the first of Bachelor's and Master's degree courses

The position in the rankings is determined, in descending order, by the overall score resulting from the sum of the score relating to the number of credits achieved within the first exam session of the academic year 2021/2022 and the score determined by the weighted average grade of the exams. The total points that can be attributed are 1,000 distributed as follows: 600 based on the number of credits acquired and 400 based on the weighted average grade of the exams passed.

The score related to the credits obtained, related to exams taken and recorded within the first exam session of the academic year 2021/2022, is calculated according to the following formula:

$$\frac{(\text{Student credits} - \text{Minimum credits}) \times 600}{(\text{Max credits} - \text{Minimum credits})}$$

The score related to the weighted average grade of the exams taken and recorded within the first exam session of the academic year 2021/2022, is calculated according to the following formula (the grade *30 e lode* is counted as 30):

$$\frac{(\text{Student weighted average} - 18) \times 400}{(30-18)}$$
