Internship

How will an internship in Italy benefit me?

You will have the privilege to have a professional experience in the sector of your interest confronting yourself with leading Italian companies of each sector. You will have the opportunity to expand your professional and personal horizons, along with creating a network that will help your capabilities and creating possible future partnerships.

What do you mean by internship?

As the winner of IYT scholarship, you must be aware that you are required to complete an internship period in a leading Italian company. Part of the student duties is to carry out a full-time internship that lasts three months. The internship program must be completed through the following instructions:

- 1) For Laurea Magistrale (LM): anytime from the end of the first summer session until July of the last semester. You may have to skip certain classes and do the exam at a later date in accordance with your university.
- 2) For Master Course: it must begin before the end of the academic year, and will entail missing certain classes that will overlap with the internship.

The internship is the core of the Program, therefore it is mandatory.

How do I find the internship?

In order to find an internship:

- 1) contact the career service of your university and follow their instructions;
- 2) In case the Invest Your Talent Committee has an internship offer to present, the Committee will contact the student directly and present that offer. There is, however, the possibility that the offer is in another city than where the student is studying.
- 3) You may also find autonomously the internship or through your university tutor but you will still follow the career service instructions and inform the Invest Your Talent Committee.

What do you mean by “scholarship renewal”?

Renewal: To apply for a scholarship renewal, the student must submit the application via the platform: <https://investyourtalentapplication.esteri.it> in the "MY APP" menu > My application > Scholarship Renewal, uploading the following documents: University Transcript of the exams (CFU), Certificate of Attendance of the Italian Language Course offered by the Universities and the Italian Company's Internship declaration. Prior to the beginning of the program, you must have already an internship **drawn up** approved by Invest Your Talent Committee.

When and where should I do my internship?

The internship takes place in Italy in an Italian company, and must last three consecutive months. Therefore in accordance with your tutor at the University you shall plan a suitable period for you to do the internship.

Please note that you cannot undertake the internship once you have completed your studies: failing to fulfill this commitment can affect the regular payment of the scholarship.

If you started an internship without asking the university's permission, you must contact the Career Service at once to make the “Convenzione di Stage” and the “Progetto formativo”. If you do not follow these instructions, the internship will not be valid.

Please note that the students sponsored by partners of IYT program are required to complete the internship at those companies.

What is the “Convenzione di Stage”?

In order to be legal and covered by insurance, internships must be subscribed by a document called “Convenzione di Stage”. It is a contract between yourself, the University, and the Company you will be interning at. This document contains the university commitment related to the student's insurance during the working period.

What is the “Progetto formativo”?

The *Progetto formativo* simply states what are the main tasks for the students, what are the objective of the traineeship, and a brief description of the internship. It is a document which has to be signed by the University tutor in agreement with the company you are doing the internship at. Please note that it has nothing to do with your scholarship renewal: it is needed for ECTS approval and insurance coverage.

Where I can found documents for the “Convenzione di Stage” and the “Progetto formativo”?

All the documents are already available in templates. You just have to ask your University career service to activate the internship procedure. They will give you all the documents needed and the procedure to follow. You just will have to bring or send the document to the company so that they can sign it and subscribe it.

Once your *Convenzione di Stage* document set, your internship can begin.

In order for the internship to be valid for IYT, you need to send us the document confirming the establishment of the internship.

Will I be paid for the internship?

There is no economic compensation other than the scholarship compensation.

Are travel expenses to and from my internship placement covered?

For the entire period of your stay in Italy, you are required to take care of your travel expenses at your own cost.

Does the company provide the accommodation?

For the entire period of your staying in Italy, you are required to take care of your accommodation at your own cost and expenses. The company will not provide any assistance with the accommodation process.

What is the possibility to extend the internship after the three months period?

You can extend the internship period for an additional three months only if the focus of your thesis is based on the internship at no additional economic compensation.

After contacting the career service and following their instructions, do I need to do anything else before starting the internship?

Yes, you must write the IYT Committee an email informing the Committee about the details of your internship. You must also inform the company where you will begin your internship to contact the IYT Committee, and assure that the company will register to the IYT platform.

My internship is already registered in my study plan at my University. Should I do something with IYT?

Yes, you do. You have to contact IYT before you have started the internship in order to allow us the registration of the company on our IYT platform.

How am I going to finish 3 months internship before the end of scholarship program?

As a winner of an IYT scholarship, while studying in Italy you must attend an internship. Therefore in accordance with your tutor at the University you shall plan a suitable period for you to do the internship.

Please note that **you cannot undertake the internship** once you have completed your studies: failing to fulfill this commitment can affect the regular payment of the scholarship.
