

**ERASMUS+ 2026**
**Destinations for**
**FCLS - FASHION COMMUNICATION AND LUXURY STRATEGIES**
**Specific Regulation:**

**Mobility period: one semester only, it is not possible to extend.**

**Destinations reserved for a specific study track:** when a destination is reserved for a single study track, it means that the host university does not offer courses compatible with the study plans of other tracks. Consequently, students select and accept a destination reserved for a particular track, they formally commit to choosing that track when renewing their enrolment. If the student later enrols in a different track from the one associated with the accepted destination, the mobility placement will be cancelled with no possibility of replacing the destination.
